

# Paper Profile

## YUPO® Octopus Blue (XAD1058)

### Product Description

YUPO® Octopus Blue is a digital synthetic grade that will adhere to any smooth surface without the use of glue, static or magnets. As the name suggests, this product works by way of 'micro suction' technology, exclusive to YUPO®. It's ability to be removed and reused without residue makes it the ultimate substrate for use in POS applications. YUPO® Octopus Blue is made specifically for, and certified to run on, the HP Indigo line of digital printers.

### Features & Benefits

- Perfect for short-run and customized pieces
- 100% waterproof
- Adheres to any smooth surface – glass, PVC, aluminium, coated paper
- Temperature tolerances -20 to +45°C
- Conforms to the European Toy Safety Standard
- Free of toxins and heavy metals

### Printing Tips

- Optimised ink adhesion specifically for printing on HP Indigo machines
- No top coating required before printing

### Printing Methods

- HP Indigo certified substrate
